OmniCoat 4000

OmniFold 3000 Series
Automatic Folding & Gluing System

Kluge Folder/Gluers

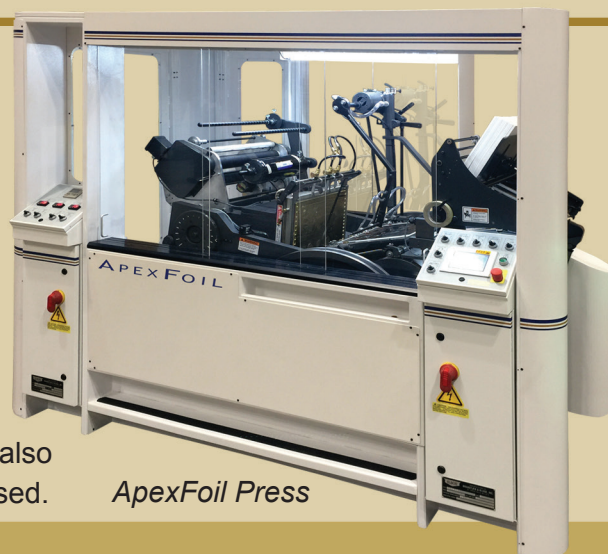

- Completely modular system
- Synchronized touch-screen controls
- Interchangeable feeding units
- Modular alignment system
- Modular pre-break device
- Interchangeable bearing bed transports and vacuum transports

Kluge Foil Stamping, Embossing & Diecutting Presses

Equipped with multiple new features including:

- TRU-TON™ Adjustable Impression System
- TRU-DWELL™ Adjustable Dwell System
- TRU-TEMP™ Dual Surface Heat Control

These features significantly reduce set-up and make-ready time and also expand the capability of the press and substrates that can be processed.

ApexFoil Press

"The addition of a third Kluge press has allowed us increased output, flexibility and machine dependability. The purchase of a remanufactured machine was an easy decision knowing Kluge's proven value."

Mike Bogner
Post Press Manager,
